Requirements

1. Localhost Apache Web Server and PHP such as XAMPP for Windows
2. Google Chrome Web Browser
3. Python 2.7 installed

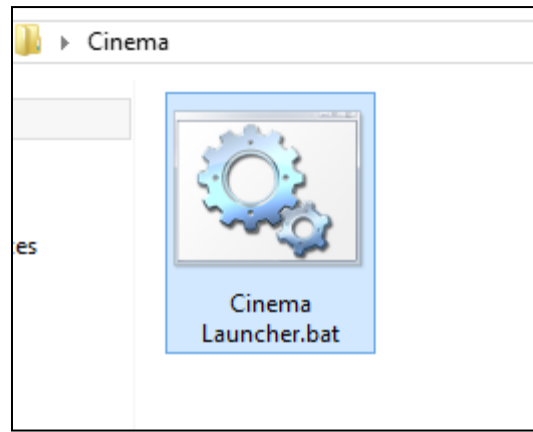

Steps Using The System

1. Run Localhost Apache Server

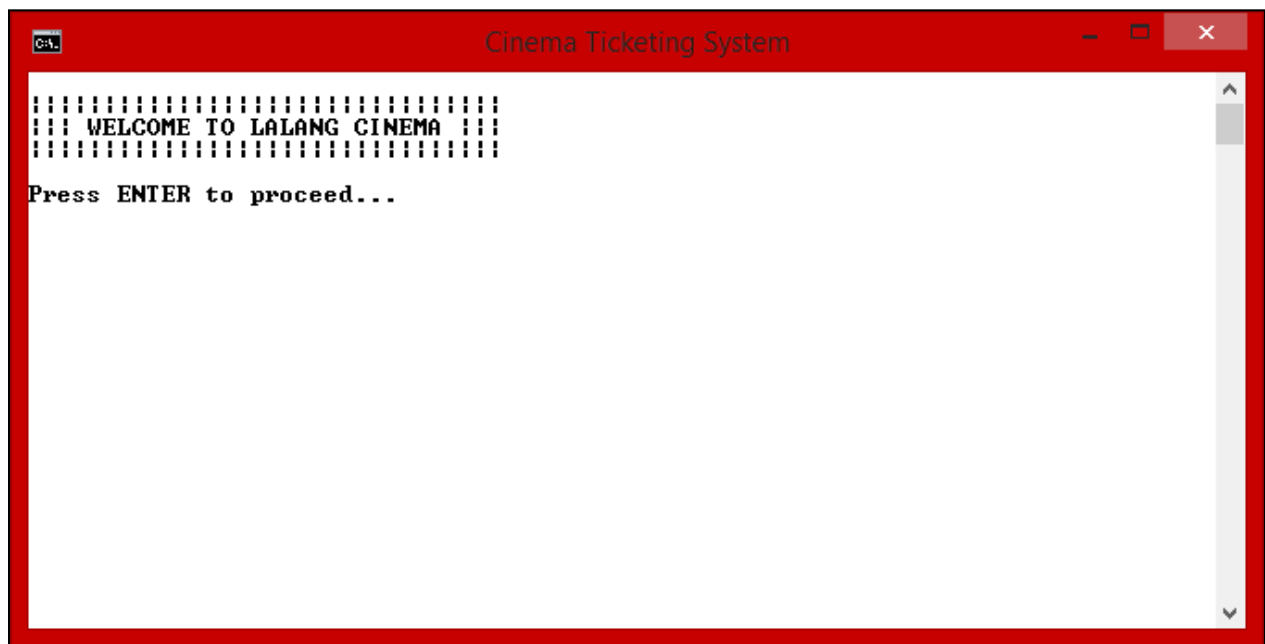

Launch the XAMPP Control Panel, and click “Start” Apache Server.

2. Launching the program

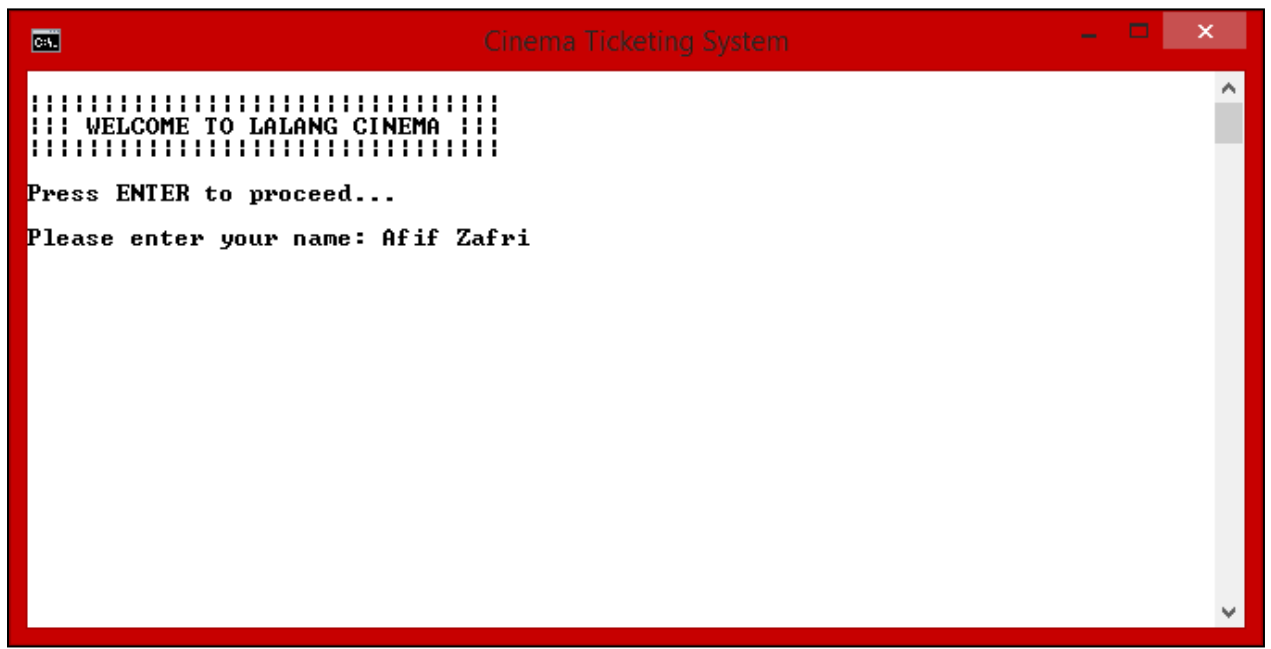

Double click on the “Cinema Launcher.bat” file to launch the program.

3. Welcome Screen

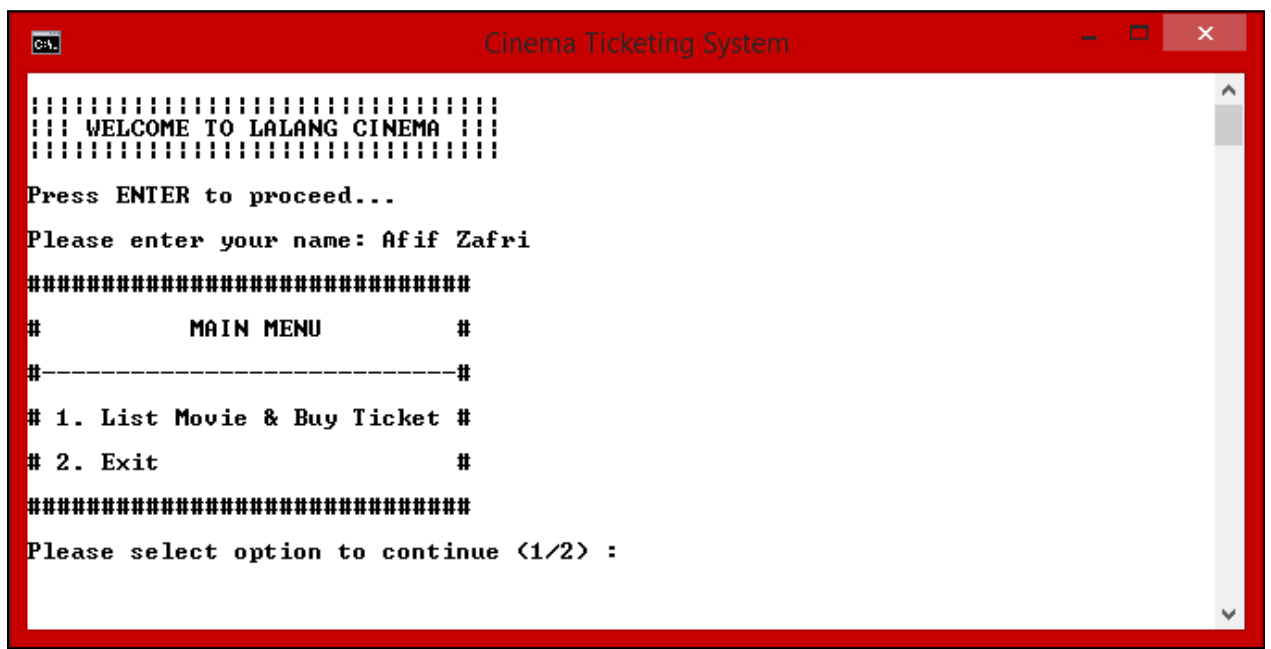

You will be greeted with Welcome Screen. Press ENTER to proceed.

4. Enter your name

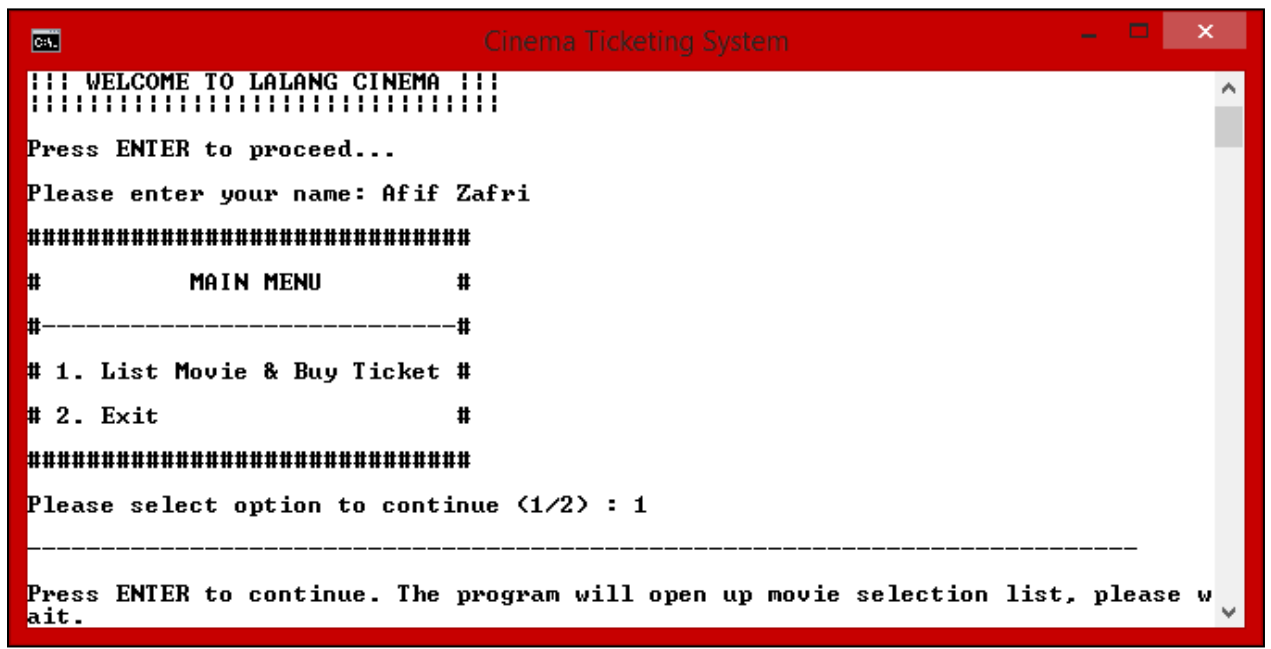

The program will ask for your name. Kindly enter your name and press enter to proceed.

5. Main Menu

You will enter the program's Main Menu. Enter one of the given options to continue. If you would like buy movie's tickets, enter option '1' , or if you want to exit the program, enter option '2'.

6. List Movie & Buy Ticket option

If you enter option 1, the program will ask you to press ENTER to continue. Next the program will open up Google Chrome browser to list the available Movies list.

7. Choose and Buy Ticket

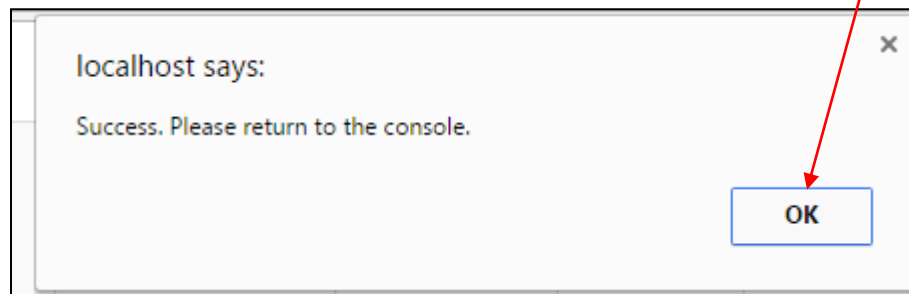

Movie List							
Poster	Title	Running Time	Release Date	Language	Genre	Screening Time	Action
	Kubo And The Two Strings	1 Hour 41 Minutes	25 Aug 2016	English	Animation	2:00 pm - 4:00 pm	Book this movie
	Suicide Squad	2 Hours 3 Minutes	04 Aug 2016	English	Action	4:30 pm - 6:30 pm	Book this movie
	Lights Out	1 Hour 29 Minutes	21 Jul 2016	English	Horror	7:00 pm - 9:00 pm	Book this movie
	Train To Busan	1 Hour 58 Minutes	08 Sep 2016	Korean	Drama / Thriller	9:30 pm - 11:30 pm	Book this movie
	One Piece Film: Gold	1 Hour 58 Minutes	08 Sep 2016	Japanese	Action / Anime	12:00 am - 2:00 am	Book this movie

In the browser, the page will list all available movies along with the details.

To buy the ticket, just click on the “Book this movie” green button.

	Train To Busan	1 Hour 58 Minutes	08 Sep 2016	Korean	Drama / Thriller	9:30 pm - 11:30 pm	Book this movie
---	----------------	-------------------	-------------	--------	------------------	--------------------	---------------------------------

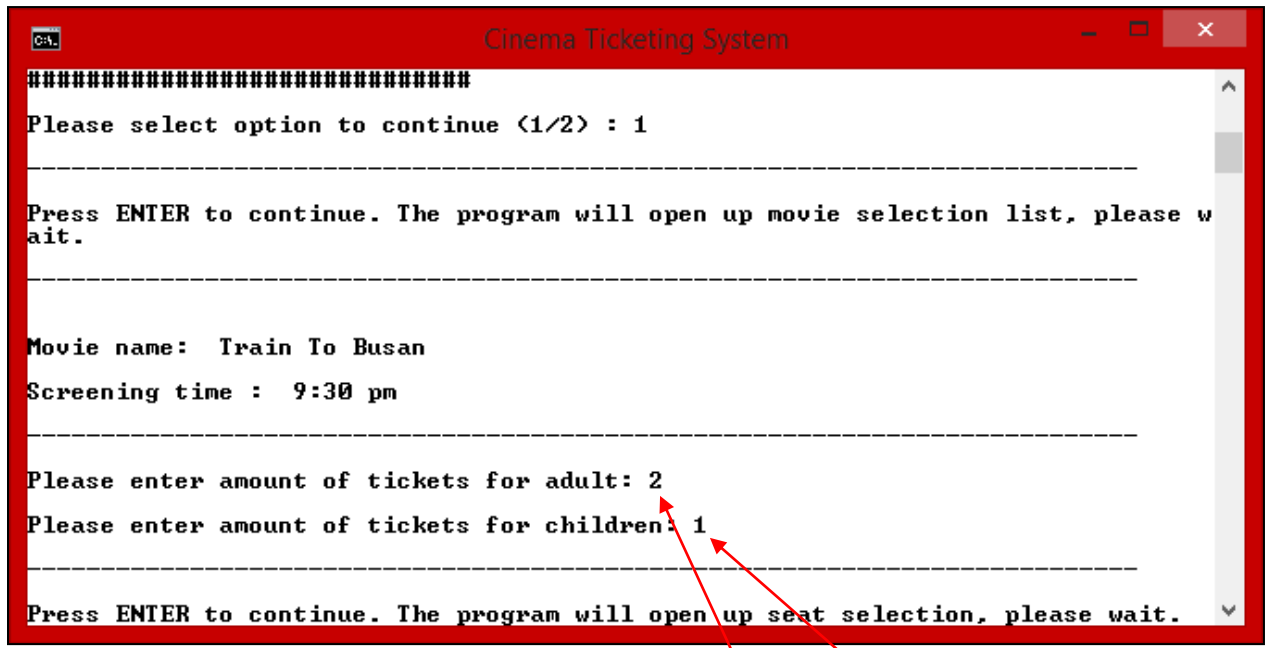

After that, the web page will alert with success message. Just click on “OK” button to return to the console console.

The program will then display the name of the movie chosen along with the screening time.

```
Cinema Ticketing System
#-----#
# 1. List Movie & Buy Ticket #
# 2. Exit                    #
#####
Please select option to continue <1/2> : 1
-----
Press ENTER to continue. The program will open up movie selection list, please wait.
-----
Movie name: Train To Busan
Screening time : 9:30 pm
-----
Please enter amount of tickets for adult:
```

8. Amount of tickets

The screenshot shows a console window titled "Cinema Ticketing System" with a red title bar. The text inside the window is as follows:

```
#####  
Please select option to continue <1/2> : 1  
-----  
Press ENTER to continue. The program will open up movie selection list, please wait.  
-----  
Movie name: Train To Busan  
Screening time : 9:30 pm  
-----  
Please enter amount of tickets for adult: 2  
Please enter amount of tickets for children: 1  
-----  
Press ENTER to continue. The program will open up seat selection, please wait.
```

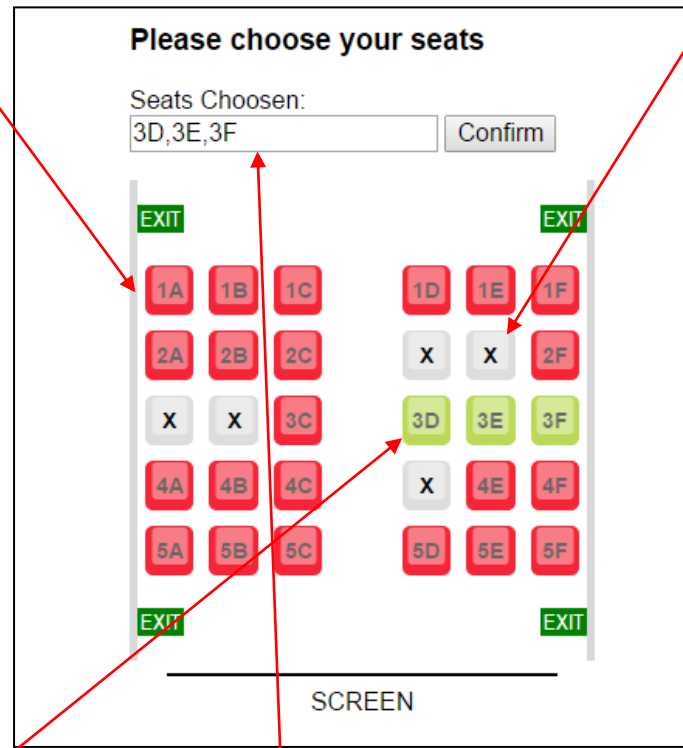

Two red arrows point from the text below to the input fields in the console. One arrow points to the value "2" entered for "adult" tickets, and the other points to the value "1" entered for "children" tickets.

Next you need to enter the amount of movie tickets for adult and children. After that, program will ask you to press Enter to continue. The program will open browser again to display the seats available in the cinema's hall.

9. Choose seats

The web page will display graphics of seats available in the cinema's hall. The "X" grayed" seats mean the seats is taken and not available.

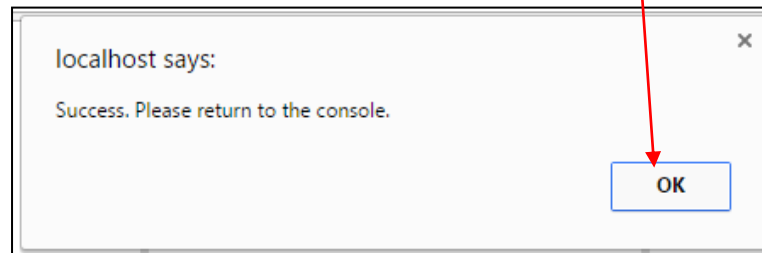

The "red" seats mean that the seats are available.

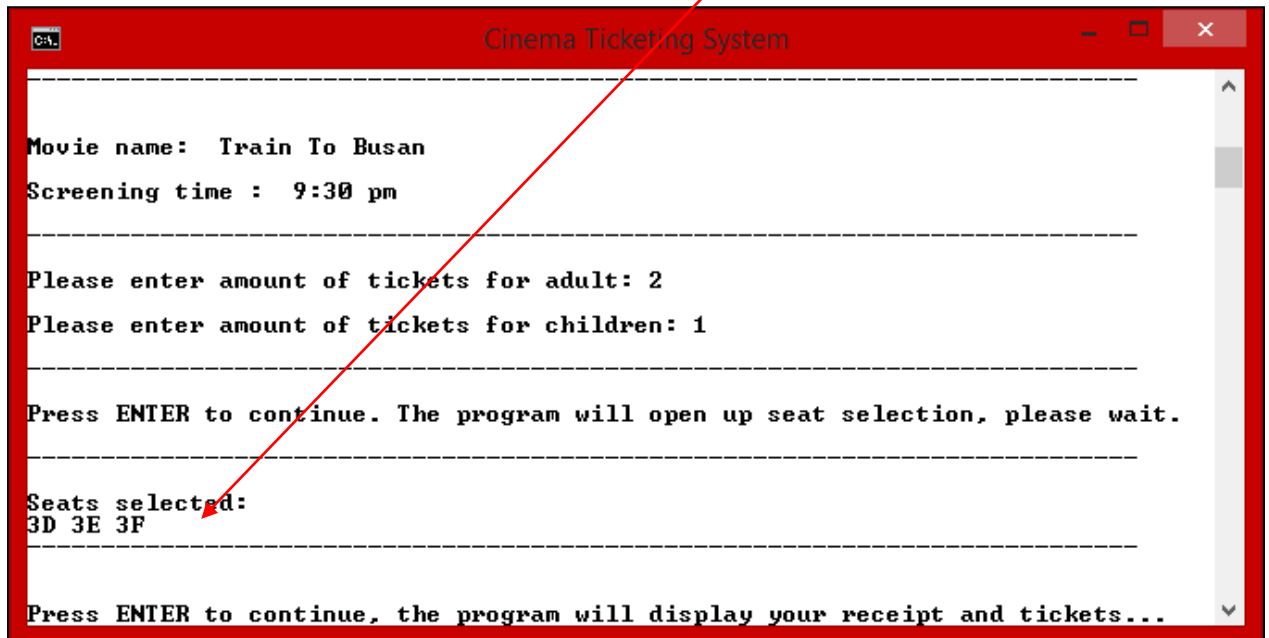

To choose the seats, just click on any seats available and the "red" seat will turn into "green" and the chosen seat will be listed in the upper box.

Finally click the "Confirm" button to confirm the seats.

The page will alert with Success message, and just click on “OK” button to return to the console program.

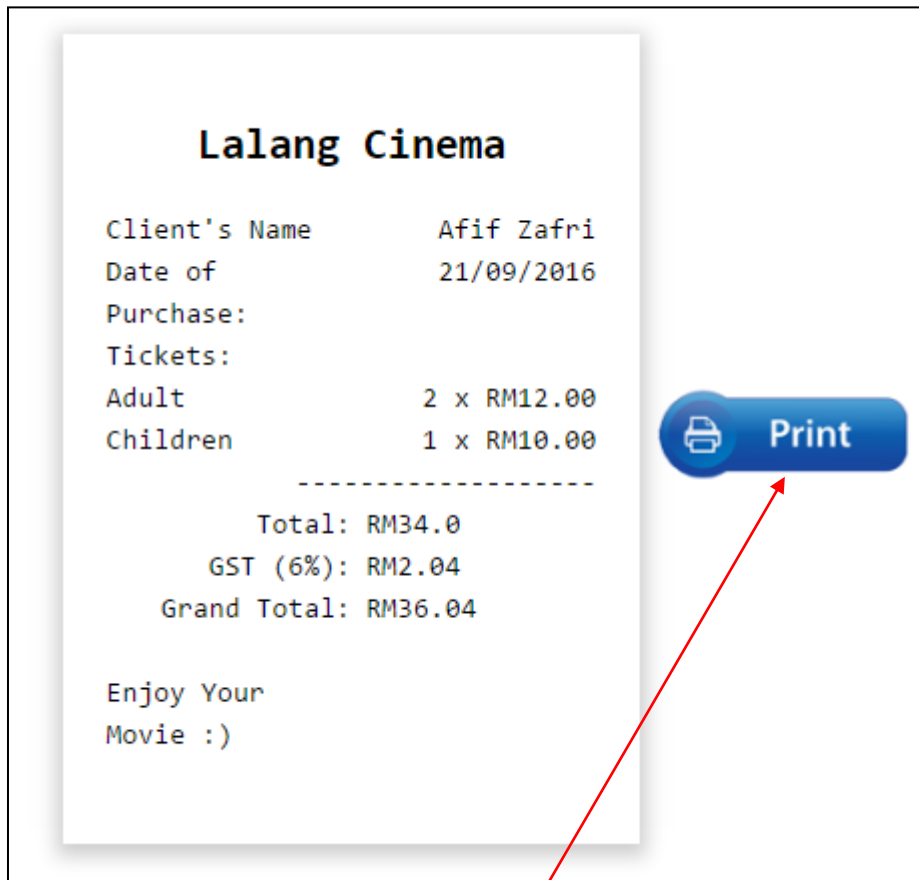

In the console program, the program will list the chosen seats.
Next you have to press ENTER to display the receipt and the tickets.

10. Receipt and tickets list

The program will once again launch the browser and display two page, which is the receipt of the purchase, and the list of tickets.

Purchase receipt:

Lalang Cinema

Client's Name Afif Zafri
Date of 21/09/2016
Purchase:
Tickets:
Adult 2 x RM12.00
Children 1 x RM10.00

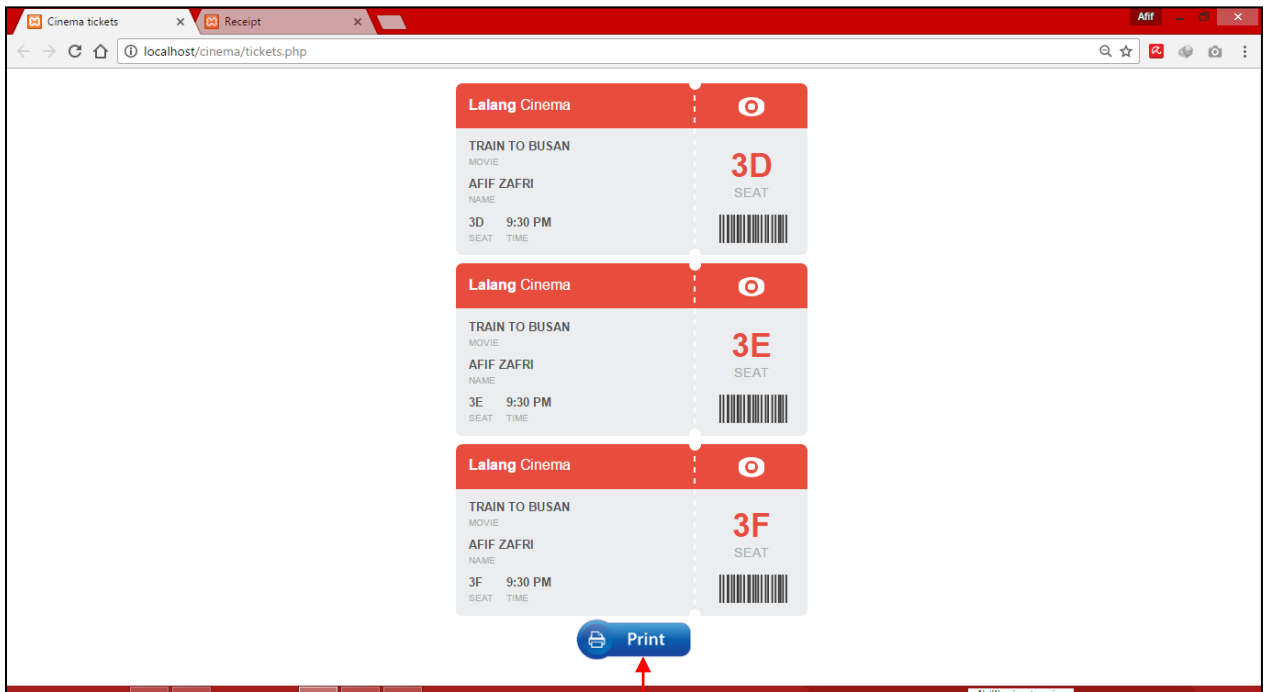

Total: RM34.0
GST (6%): RM2.04
Grand Total: RM36.04

Enjoy Your
Movie :)

 **Print**

The receipt will list your name, date of purchase, the tickets purchase along with the price for each adult and children ticket. Finally at the bottom the receipt will display the Total price, the GST and the Grand Total you have to pay.
You just need to click the "Print" button to print the receipt.

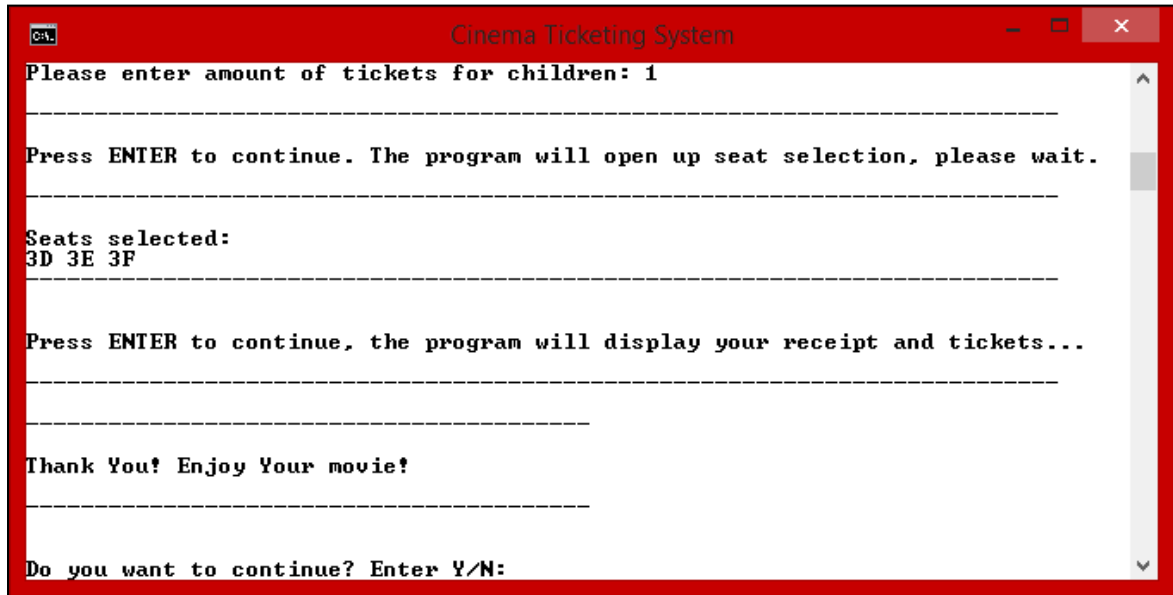

Tickets list:

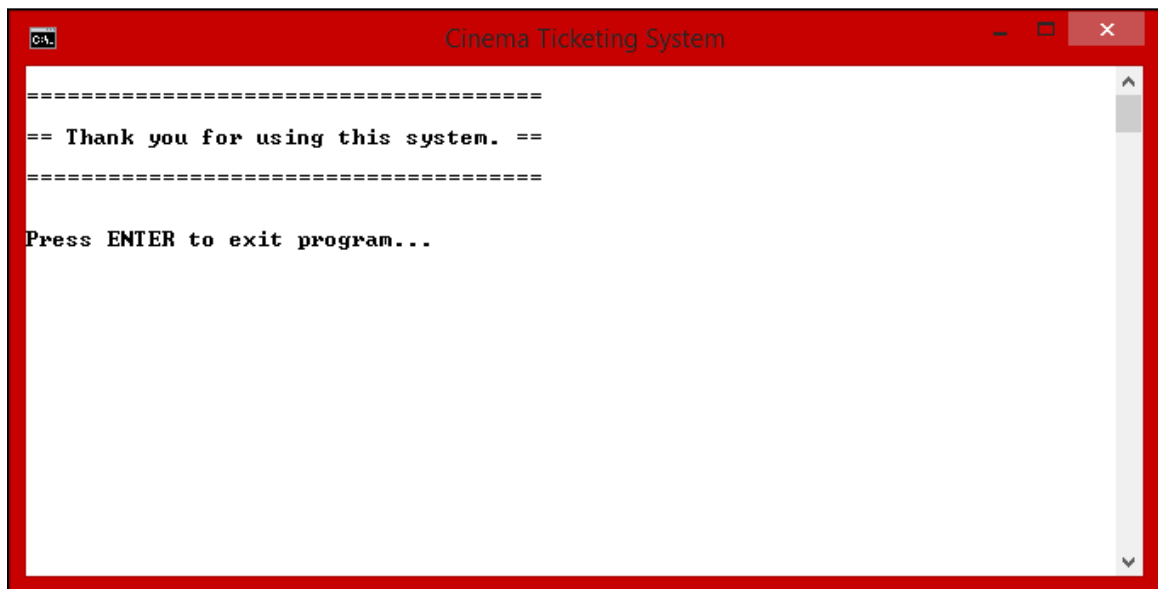

You have to print the tickets by clicking on the "Print" button, and bring the tickets along with you to the cinema.

11. Exit Program

After you have print both ticket and receipt, just close the browser to return to the program.

The program will ask if you want to continue using the program to buy other movies ticket. If you enter "Y", the program will display back the main menu of the program. If you enter "N", the program will display a thank you message.

Press ENTER to close the program
